

**AMENDMENTS TO THE SPECIFICATION**

Further to the Examiner's request, please insert the following text prior to paragraph [0001]:

This application is a national stage entry of International Application PCT/EP04/006733, filed on June 22, 2004, which claims the benefit of U.S. provisional application number 60/530,629, filed on December 19, 2003.

The Examiner has also requested that the embedded hyperlinks be removed from the application at page 4, line 20. Accordingly, please replace paragraph [0021] with the following text which has been marked up to show changes:

[0021] Surprisingly, hydrolysis with chymotrypsin provides improved pharmaceutical compositions compared to hydrolysis with pepsin or other trypsin. However, without to be bound to this observation, the hydrolysis can also be performed with any other protease selected from the list according to the nomenclature Committee of the international union of biochemistry and molecular biology, the list of MEROPS database ~~http://www.merops.co.uk~~ and Nucleid Acids Res. 2004:32 Database issue:D160-4., and of Barret A J, Rawlings N D Woessner J F (eds) 1998 Handbook of Proteolytic Enzymes, Academic Press Londong.
